A Smarter Recovery System

Quickly Recover NSF & Declined Transactions

SwordePay
Powered by eCashflow

SeeTek®

A Brief History:

Started in 1999

Denver-based fintech solutions provider with a clearinghouse focused on NSF decline recovery for Check and recurring ACH, EFT, debit, and credit card transactions

Millions in cashflow recovered

That uses optimization algorithms to generate an Industry leading recovery rate of 70-90% across all Industries.

Thousands of clients served

By doing so, our service substantially lowers client's customer attrition by handling all transaction recovery electronically – no phone calls, letter, or e-mails!

Growing to help more businesses

Clients include large and small businesses public sector & non-profits.

Our Secret:

We use custom Algorithms designed by very smart people...

We process all credit, debit, and ACH representments with intelligence based on 19 years of re-submissions using custom algorithms that tell us the best time to re-submit for recovery, i.e. time of day, day of week, week of month for an average success rate of 70-90%.

Why Decline **Recovery** Matters

15%

of all recurring debit/ credit card transactions are declined per month

55%

of NSF declined transactions are NOT recovered

Profits Affected

Negative impact on cash flow.

In-House is Costly

In-house & third party collection agencies are costly!
